REASONS FOR ALLOWANCE

1. Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites a series of partial cylindrical lengths interposed with partial frustoconical lengths forming an elongated member having a rounded surface and a light-emitting surface, and the light-emitting surface being substantially smooth.

Claims 2-6 are dependent on claim 1.

Claim 7 recites an elongated light spreader having a light conductive end, an optical path conversion side, and a planar light transmitting side; wherein, the optical path conversion side is substantially rounded about a longitudinal axis and has a plurality of light transmissible lengths being interposed with prismatic lengths.

Claims 8-11 are dependent on claim 7.

Claim 12 recites an elongated transparent member having a flat side and a rounded side, wherein the rounded side has a series of sections, the sections having a first lengths of a constant arc radius and a second length of linearly decreasing arc radius about the flat side.

Claims 13-16 are dependent on claim 13.

Claim 17 recites an elongated light spreader having a light conductive end, a light emitting flat surface, and an optical path conversion means; the optical path conversion means is a plurality of partial cylindrical lengths interposed with partially frustoconical lengths forming the flat surface.

Claims 18-21 are dependent on claim 17.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hooker et al. [US 6,554,463], Ikeda [US 6,612,730], and Pelka et al. [US 6,637,924] disclose an elongated waveguide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
